BUGATTI®

VENTO

professional

The
SMART
POWER BLENDER

“ I use VENTO in my work and also in teaching, I can confirm that it is a very useful tool in my activity and I am very satisfied with it! ”

Fiorenzo Colombo
 Founder of A.B.I. Professional (Italian Professional Barman Association),
 Member of Executive Committee and Formation Center of A.B.I.,
 Barman e teacher with many years of experience.

BUGATTI® VENTO professional

THE MOST
INNOVATIVE MIX

Vento professional. Unstoppable even with the most difficult mixtures, it prepares **impeccable drinks, beverage, frozen with high ice content**, fruit puree and much more.

The innovative DC Brushless motor is **ultra-powerful** thanks to its 4,27 peak HP and has 57% more torque.

It keeps **perfect control** at all speeds, without performance loss even under load, and it is very quiet. The only one among power blenders to work starting from 400 rpm.

1000-Watt power and 33% **energy saving** compared to traditional AC power blenders.

All thicker frozen mixture are ready in 20 seconds. Every detail is designed to **reduce preparation times** and ensure perfect results.

ICY Jar (1Lt/32 fl oz): the **gondola shape** of the bottom and the wide square base favor the **vortex of the ingredients and needs less working times**. The hermetic seal prevents the oxidation and the leakage of the preparations.

Blade unit B ICY (patent pending), the exclusive Y-shaped and Winglet bending design is excellent to blend **ice and frozen fruit** to perfection and get **the best consistency** in the shortest time. The ultra-strong steel alloy blades work at maximum efficiency, they are hardened and with special sharpening.

Soundless cover available for maximum silence.

60 customizable cycles in an easy and fast way directly into the reserved area on www.bchef.com.

Immediate download into the blender from App BChef (for Android and IOS): from 1 to 6 programs directly on the display and from 7 to 60 recallable from the control panel.

Centralized planning of preparations. Remote diagnostics (industry 4.0) for **effective after sales service**.

Control of ingredients and consumption for maximum efficiency in time and cost. Vento professional is an **invaluable tool** in the management of cafés chains and franchises.
